

Every day well lived

An introduction
to our homes

At WCS Care...

We don't believe your life has to change when you move into a care home. You should be able to carry on doing the things you've always done and have the opportunity to try new things.

With this approach in mind we focus on providing homely environments where freedom, choice and dignity are paramount, stimulation and activity are always on the agenda and staff are available to provide support when needed.

Each home has its
own personality
as well as
different facilities

WCS Care has 10 care homes for older people and people living with dementia

(we'll be re-opening our 11th home, which is currently being completely redeveloped, in 2019).

Each home has its own personality as well as different facilities. We've provided brief information about each of our homes here, however we know choosing the right home and level of care is an important decision and we encourage you to visit any home you're considering.

*You're welcome to
call in at any time!*

**The kettle's always on – and
a manager will be available
for you to talk to between
8am and 10pm every day.**

New home

Opening in Warwick in 2019

We're currently redeveloping our home on Spinney Hill in Warwick and will be opening a unique care home offering residents a village experience.

Providing family-scale living areas and a range of onsite facilities include a shop, café, traditional launderette, spa, hair salon and cinema, this inspiring home will also feature the latest technology including circadian lighting, night time acoustic monitoring and intelligent lifts.

Choosing your home

If we don't have a room available at the home you'd prefer we'll be more than happy to welcome you to one of our other homes until a room becomes available at your first-choice home.

We know that each of our homes has its own personality and atmosphere, however we can

assure you that you'll receive the same high quality care at any of our homes.
